ANKUSH ENTERPRISES

OFFICIAL CORPORATE PORTFOLIO // Q3 2026 EDITION

Sovereign Defence Technology & Strategic Computing Infrastructure

Custom AI Servers · Command War Rooms & C4I · Aerospace Ground Support · Tactical Surveillance · Turnkey Lifecycle SLA

PAN-INDIA
Air Force, Army, Navy & DRDO

100% CRAC
Flawless On-Time Acceptance

TIER-1 OEM
Ingram Micro & Redington

< 4-HR SLA
Priority Formation Response

Bridging the Defence Procurement Divide

ANKUSH ENTERPRISES

THE PROCUREMENT DILEMMA

Defence formations frequently face an uncompromising trade-off:

• Tier-1 Conglomerates: Rigid procurement cycles, exorbitant licensing, multi-month lead times, and prohibitive AMC sustainment costs.

• Unvetted Local Vendors: High risk of uncertified grey-market hardware, delayed technical clearance, and zero accountability post-delivery.

THE ANKUSH ENTERPRISES RESOLUTION

An agile, sovereign engineering partner backed by direct tier-1 silicon distribution agreements:

✓ Silicon Provenance: Direct enterprise distribution alliances with Ingram Micro & Redington Limited guarantee zero counterfeit risk.

✓ Agile Execution: Rapid turnaround with < 4-hour on-station SLA across Indian defence corridors.

✓ Statutory Privilege: Registered under NSIC SPRS with GFR 2017 Rule 170(i) Earnest Money Deposit (EMD) exemption.

Multi-Command Execution Across Strategic Formations

Pan-India
OPERATIONAL REACH
IAF, Army, Navy & DRDO Commands

100%
CRAC COMPLIANCE
On-time inspection & site handover

ISO 9001
QUALITY CERTIFIED
Class-0 ESD & 72-hr thermal burn-in

Priority on-station response window

STRATEGIC DEFENCE SECTORS SERVED

- Indian Air Force (IAF) (Aerospace & Simulators) — Air Force Station Bidar multi-year sustainment, flight simulator subsystems, and flight-line avionics
- Defence R&D (DRDO) (Sovereign AI & HPC) — Hyderabad research laboratories, air-gapped multi-GPU server clusters, and ESD electronic test benches
- Indian Army (C4I Command Centers) — HQ 54 Infantry Division, turnkey Command War Room video wall matrix, and red/black secure networking
- Indian Navy & Auxiliaries (Naval Aviation Support) — INS Dega Naval Air Station, coastal diagnostic electronics maintenance, and IP67 optical surveillance

Authorized Enterprise Tier-1 Alliances

DIRECT ENTERPRISE DISTRIBUTOR ALLIANCE

Ingram Micro India Pvt. Ltd.

Ingram Micro is the global leader in technology distribution and supply chain services. Our direct enterprise partnership provides:

✓ Official OEM silicon provenance & zero counterfeit risk.

✓ Direct enterprise warranties back-to-back with manufacturers.

✓ High-density server clusters, multi-GPU arrays, and enterprise storage.

✓ Verified serial number tracking ensuring flawless CRAC inspection compliance.

ENTERPRISE HARDWARE & INFRASTRUCTURE CHANNEL

Redington Limited

Redington Limited operates a premier technology supply ecosystem across India. Our alliance ensures:

✓ Rapid turnaround on mission-critical replacement spares.

✓ Direct access to enterprise networking fabrics (Cisco, Aruba, Mellanox).

✓ Dedicated logistics corridors serving remote defence formations.

✓ Transparent pricing compliant with GFR 2017 single-source procurement guidelines.

Custom Computing & AI Workstations

Air-gapped multi-GPU deep learning systems, localized sovereign LLM appliances, liquid-cooled workstation towers, and tactical edge computing clusters.

TECHNICAL SPECIFICATIONS & USE CASES

- Compute Topology: Dual AMD EPYC / Intel Xeon 64-core architectures
- Acceleration: NVIDIA A100 / H100 SXM & PCIe Multi-GPU clusters
- Cooling & Thermal: Closed-loop custom liquid cooling for sustained 100% duty
- Security Protocol: Hardware-level air-gapping with disabled unencrypted I/O
- Proven Deployment: DRDO Research Labs, Sovereign AI Training Clusters

Command War Rooms & C4I Enterprise IT

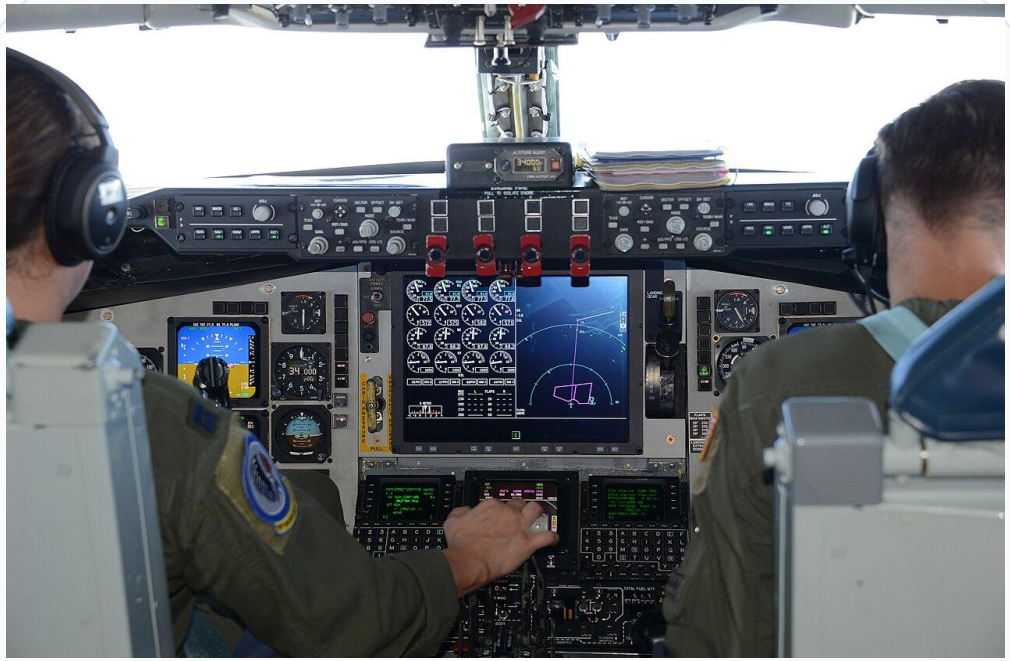

MIL-STD 24/7 video walls, tactical war-room consoles, air-gapped secure switching, red/black communication isolation, and mission command centers.

TECHNICAL SPECIFICATIONS & USE CASES

- Display Architecture: Ultra-narrow bezel 4K video walls with synchronous multi-feed
- Network Isolation: Physical Red/Black optical separation with zero leakage
- Switching Fabric: 10G/40G fiber enterprise distribution with failover
- Power Resilience: Dual-redundant online UPS with bypass synchronization
- Proven Deployment: HQ 54 Infantry Division Command War Room

Aerospace & Avionics Ground Support

Specialized avionics test benches, flight line support electronics, radar subsystem testing, and MIL-DTL specification harness fabrication.

TECHNICAL SPECIFICATIONS & USE CASES

- Standard Spec: MIL-DTL-38999 circular connectors and ruggedized looms
- Test Benches: Automated checkout rigs for radar receivers and transponders
- Environmental: Conformal-coated PCBs rated for extreme thermal shock
- Telemetry Logging: High-speed multi-channel bus analyzers (MIL-STD-1553)
- Proven Deployment: AFS Bidar multi-year simulator & avionics sustainment

Tactical Surveillance & Perimeter Defense

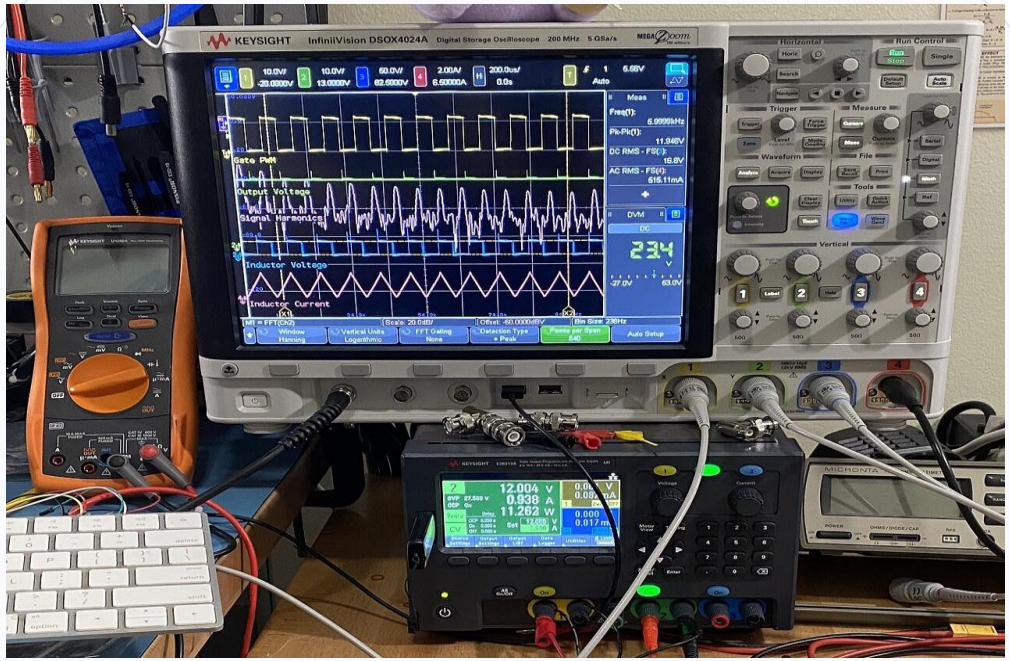

Long-range optical & thermal perimeter surveillance, biometric multi-factor access control, and AI-enabled intrusion detection arrays.

TECHNICAL SPECIFICATIONS & USE CASES

- Optical Arrays: Continuous 360° pan-tilt-zoom with cooled thermal imaging
- Edge Intelligence: On-camera neural analytics for vehicle and personnel tagging
- Access Control: Multi-factor biometric, smart card, and physical interlocks
- Ruggedization: IP67 weather-sealed stainless housings with surge arrestors
- Proven Deployment: INS Dega Naval Air Station perimeter security

Electronics R&D & Calibration Labs

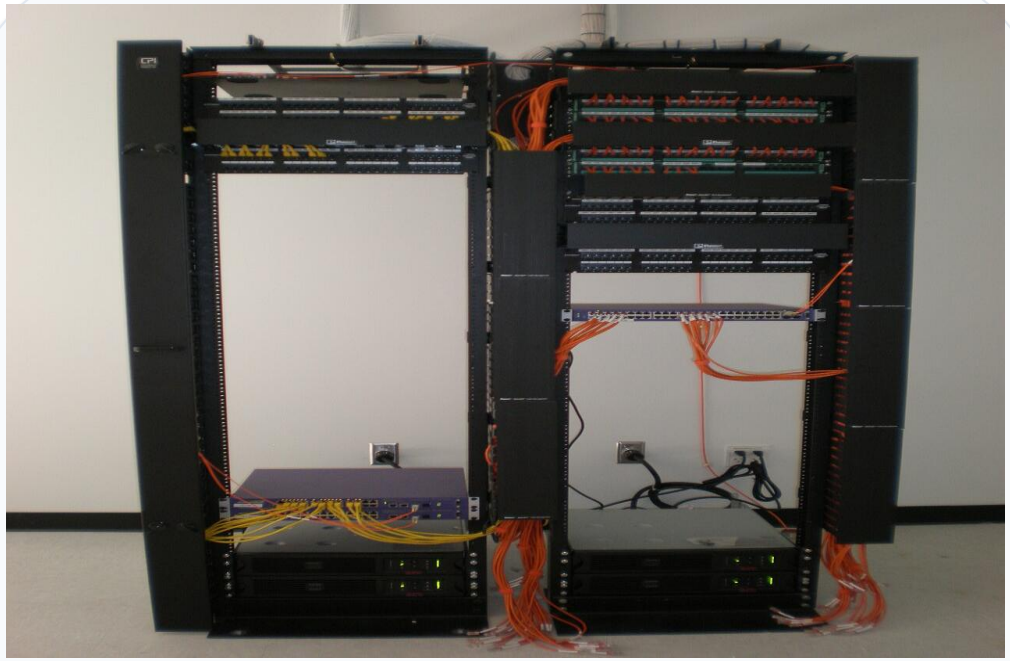

Turnkey electronic test benches, spectrum analyzers, high-bandwidth oscilloscopes, and ESD-certified precision calibration labs.

TECHNICAL SPECIFICATIONS & USE CASES

- RF Instrumentation: Digital spectrum analyzers up to 40 GHz & vector network analyzers
- Signal Analysis: Multi-channel mixed-signal oscilloscopes with protocol decoders
- ESD Protection: Certified static-dissipative workstations and ionizers
- Metrology Standards: Traceable calibration compliant with ISO/IEC 17025 standards
- Proven Deployment: Turnkey R&D laboratory setups for defence research

Defence Procurement & Lifecycle SLA

OEM silicon distribution via Ingram Micro and Redington Limited, critical field spares stocking, and comprehensive 24/7 maintenance (CAMC).

TECHNICAL SPECIFICATIONS & USE CASES

- Silicon Provenance: Tier-1 authorized distribution via Ingram Micro & Redington
- Stocking Buffer: Dedicated critical spares warehouse in Secunderabad HQ
- Turnaround Time: < 4-hour initial on-site response with 24-hr part replacement
- Statutory Exemption: GFR 2017 Rule 170(i) EMD Exemption on all tenders
- Proven Deployment: Annual Comprehensive Maintenance across military bases

Documented Defence Performance Debriefs

INDIAN AIR FORCE // MULTI-YEAR SUSTAINMENT

Air Force Station Bidar

Sustained consecutive multi-year supply and maintenance assignments for flight simulator subsystems, radar checkout electronics, and mission operations IT with 100% on-time acceptance.

★ 100% CRAC ON-TIME CLEARANCE

INDIAN ARMY // COMMAND WAR ROOM

HQ 54 Infantry Division

Turnkey integration of mission-critical Command War Room. Synchronous multi-feed 4K video wall matrix, optical Red/Black network separation, and high-availability server racks.

★ 24/7 ZERO DOWNTIME SLA

DEFENCE R&D // HPC CLUSTERS

DRDO Research Laboratories

Custom-engineered air-gapped multi-GPU deep learning compute arrays and high-precision electronic test setups for sovereign classified modelling and simulation.

★ MULTI-GPU ACCELERATED HPC

INDIAN NAVY // MARITIME SURVEILLANCE

INS Dega Naval Air Station

Turnkey perimeter security, aviation diagnostic electronics maintenance, and long-range optical surveillance with IP67 marine-grade weatherproofing.

★ IP67 MARITIME GRADE SURVEILLANCE

ISO 9001:2015 Four-Stage Delivery Framework

01
Understand

Review the formal requirement, operational constraints, site conditions, environmental ratings, and acceptance criteria before engineering begins.

02
Engineer

Define the exact configuration, Tier-1 OEM hardware sourcing path (via Ingram Micro / Redington), and pre-dispatch testing schedule.

03
Deliver

Install, configure, and commission on-site. Execute joint Factory & Site Acceptance Testing (FAT/SAT) against contracted scope.

04
Sustain

Provide lifecycle maintenance under clearly defined service agreements. Maintain dedicated local spares inventory for immediate dispatch.

Statutory Exemptions & Verified Credentials

EARNEST MONEY DEPOSIT WAIVER ACROSS ALL TENDERS

GFR 2017 Rule 170(i) EMD Exemption

Under Rule 170(i) of the General Financial Rules (GFR 2017) and Ministry of MSME guidelines, Ankush Enterprises is fully exempted from submitting Earnest Money Deposit (EMD) or bid security across all Ministry of Defence, GeM, and Central Public Sector tenders.

REGISTERED GOVERNMENT SUPPLIER PRIVILEGES

NSIC Single Point Registration Scheme (SPRS)

Reference: NSIC/GP/NTA/2022/0050229 (SGS Factory Inspected: IN/HYD/IND/NSIC/182/2022). Provides statutory tender benefits, waiver of security deposits, and verified manufacturing/service standing.

CERTIFIED DEFENCE INTEGRATION STANDARDS

ISO 9001:2015 Quality Management

Certificate Reference: EU-QMS-6561. Certified for supply, assembly, systems integration, and lifecycle maintenance of computing, C4I command rooms, avionics support, and security systems.

VERIFIED DEFENCE MERCHANT · 100% CRAC

GeM Star Verified Institutional Seller

Seller ID: 9140180000478106. Verified Government e-Marketplace defence supplier with flawless 100% on-time Consignee Receipt and Acceptance Certificate (CRAC) clearance.
